

GLUING TEMPLATE INSTRUCTIONS

To make sure the gluing template is used correctly, please read the following instructions carefully

Characteristics of the gluing template:

- 1. Outline layout:** the size of your mould board corresponds with the size of the gluing template.
- 2. Positioning aids:** the incisions and the center cross will help you with centering the gluing template on your mould board.
- 3. Product information:** all the information about the gluing template and the used product can be found on the left side of the gluing template. Keep this side up and on the left position at all times.

Using the gluing template:

1. Position the gluing template on the mould board
2. Make sure the center of the gluing template is on top of the center of the mould board
3. Secure the gluing template with applying the four corner moulds
4. Start filling the gluing template with the rest of the moulds
5. Let the glue set according to the instructions on the label of the glue
6. Carefully remove the gluing template from the mould board
